### Corporate camping

The woodland glamping village of Camp Katur has launched a new corporate package for business teams looking to bond with colleagues over the campfire. Set within 250 acres of scenic North Yorkshire countryside this is camping but not as you know it – with accommodation options including hobbit pods, bell tents, tipis, safari tents and geodomes. A rustic barn provides catering and entertainment – including a bar, a mezzanine chill out area and outdoor fire pits. While on the Camp Hill Estate there's a host of team building choices like quad biking, blindfold driving, segway treks and tree top high rope courses. Plus there's an outdoor eco-spa with hot tub and sauna and a Norwegian BBQ hut. And if your delegates just want to relax and unwind Camp Katur houses the UK's only clear panoramic Unidome offering 360 degree views of the surrounding woodland.
